

University of New Mexico Signage and Wayfinding

Design Intent Documents
Updated 6.23.2025

General

These drawings are for bid purposes only, not for construction.

Shop drawings of all sign types are to be provided by fabricator. Fabricator must interpret Ummo's design intent drawings and create unique shop drawings. Fabricator cannot use Ummo's drawings as their own shop drawings.

The fabricator shall be responsible for verification of all dimensions and field conditions prior to performing the work, and inform this office of any variations. Written dimensions shall have authority over scaled dimensions.

General Standards

Colors

Our cherry red takes its inspiration from the crimson glow of the majestic Sandia Mountains at sunset. Our silver, from the Rio Grande that looks like a shimmering strip of silver winding through the Albuquerque basin. Both colors have been an essential part of our brand for more than 100 years. Whenever possible, these official colors should be utilized in brand communications.

Black
PMS Black C

Symbols

Identity

Typeface

The University of New Mexico uses two unique fonts in its branded communications: Vitesse and Gotham, in various weights.

Vitesse is a bold slab-serif that can be used to grab attention, while Gotham is a modern sans-serif that communicates confidence and friendliness through its simplicity.

By utilizing combinations of these two fonts, we're able to create communications that are both bold and distinct, yet consistent and tied to the UNM brand.

Vitesse Bold
